

Health and Wellness Statement

June 13, 2023

With the ending of the COVID Public Health Emergency in May 2023, the ULCH COVID 19 Procedures have also been retired. Yet, in keeping with good health and wellness practices for the community the following statement guides how we approach being in community.

To support the health and wellness of all those among us, please feel welcome to use masks and hand sanitizers, please stay current with your vaccinations as recommended by your health provider, and stay home as needed until you are well. These are all strategies to mitigate infectious illness and support your wellbeing and the wellbeing of others. Please reach out to staff or church leadership so that we may connect with you if you are ill or in need of support.

Health and wellness includes our whole selves - mind, body, and spirit. This community strives to create an environment for you to thrive in relationship with God and with one another.
